SUMMARY

B.Tech CSE (AI & ML) student interested in Artificial Intelligence and Machine Learning. Have hands-on experience with Python, SQL, Pandas, NumPy, and Scikit-learn through academic and personal projects. Looking to apply my skills and gain practical industry experience in AI/ML.

EDUCATION

GALGOTIAS UNIVERSITY

B.Tech in CSE (Artificial Intelligence and Machine Learning)

GREATER NOIDA

2023-2027

SURPAT SINGH HIGH SCHOOL

Senior Secondary School, Percentage: 79.2%

CHHATAPUR, BIHAR

2021-2023

SURPAT SINGH HIGH SCHOOL

Secondary School, Percentage: 87.8%

CHHATAPUR, BIHAR

2021

TECHNICAL SKILL

- **Languages:** Python, Java
- **Machine Learning:** Machine Learning, Supervised Learning, Unsupervised Learning, Model Training, Model Evaluation, Feature Engineering
- **Data Science:** NumPy, Pandas, Matplotlib, Scikit-learn, Data Preprocessing, Data Cleaning, Data Analysis, Data Visualization
- **Database:** SQL, Database Fundamentals
- **Core CS:** Data Structures & Algorithms, OOP, Problem Solving
- **Deep Learning:** TensorFlow, PyTorch
- **AI:** NLP, Generative AI, Large Language Models (LLMs)
- **Tools:** Git, GitHub, Jupyter Notebook
- **Soft Skills:** Communication, Teamwork, Adaptability

PROJECTS

1. AI-Powered Resume Analyzer & Job Matching System

Technologies: Python, NLP, Scikit-learn, Pandas, NumPy, SQL, LLM

- Developed an AI/ML-powered resume analyzer that generated ATS-style resume-job description match scores, achieving 83.33% classification accuracy on the sample test split.
- Implemented NLP-based skill extraction and keyword matching, supporting 65 technical skills across 8 categories and automatically identifying resume skill gaps.
- Integrated SQL-backed analysis history with rule-based and optional LLM recommendations to identify missing skills and generate personalized resume improvement suggestions.

2. Bangalore House Price Prediction

Technologies: Python, Machine Learning, Pandas, NumPy, Scikit-learn

- Developed a Ridge Regression model to predict Bangalore house prices using 13,320+ property records based on location, area, BHK, and bathrooms.
- Performed data preprocessing and feature engineering, resulting in 7,360 cleaned records for model training and evaluation.
- Achieved an R^2 score of 82.97% on the test dataset, demonstrating strong predictive performance.

INTERNSHIPS & CERTIFICATIONS

- AICTE Google for Developers – AI/ML Virtual Internship (Aug 2025)
- Deloitte – Technology Job Simulation | Forge (Aug 2026)
— Completed practical tasks in Coding & Development.
